

IN/OUT DOOR

Salone del Mobile 2023

The background of the entire page is a photograph of several large aloe vera plants in a garden. The plants are green with serrated edges and are set against a light-colored, textured wall. The lighting is soft and natural, highlighting the texture of the leaves and the wall.

The brand-new Vismara collection for Outdoor takes its first steps with products designed to fully enjoy private entertainment even in the open air, simply by opening the door of your garden.

During these uncertain and complicated years, we have been forced to stay at home and experience the household as a refuge. The desire to cross the threshold and conquer the outside has become an actual necessity.

Nowadays we find ourselves approaching the house not only as a place enclosed by walls, but we perceive it as an element that blends with the outside, rediscovering that bond between man and nature which is essential for every living being.

The main entrance leads to the residential game room furnished with different types of game tables. The protagonist of this setting is undoubtedly the brand-new Oskar Foosball Table, whose sinuous shape and 50's design make it a timeless product. Oskar is inspired by the theatrical figures of Bauhaus master Oskar Schlemmer. The playful spirit of this new foosball table is particularly noticeable in the design of its little players, made of turned aluminum sections and characterized by curvilinear silhouettes.

Another new entry in the game tables family is Enigma. A product waiting to be discovered which reveals hidden tops that give you the opportunity to try your hand at different games: from Indian Carrom to Bridge, from Chinese Mahjong to Chess. Enigma is a multigame table, designed to entertain four players and equipped with all the accessories for the various games.

If the house
represents comfort,
the Outdoor
is a safe passage
towards the outside
world.

THE MULTIPURPOSE

Room

We are now in the Multi-purpose Room. A space equipped with all comforts, a hybrid setting halfway between a Cinema Room and a Relax Room.

Kubrik Reclining Sofa, already introduced in 2022 at Salone del Mobile, is the great protagonist of this space. With its endless comfort invites to relax and enjoy a movie, a football match or a video game night with friends.

This homey looking room is the perfect area to place game tables too. A mix of Cinema and Games to experience moments of pure relaxation and fun.
