GAME TABLES

OSKAR

Foosball Table

Rounded shapes, sinuous lines and pastel colours. The inspiration for the new Oskar Foosball Table comes directly from the 50s design.

Its soft shape marries perfectly with the little players, inspired by the theatrical figures of the Bauhaus master Oskar Schlemmer.

The playful spirit of this table is in perfect harmony with its design.

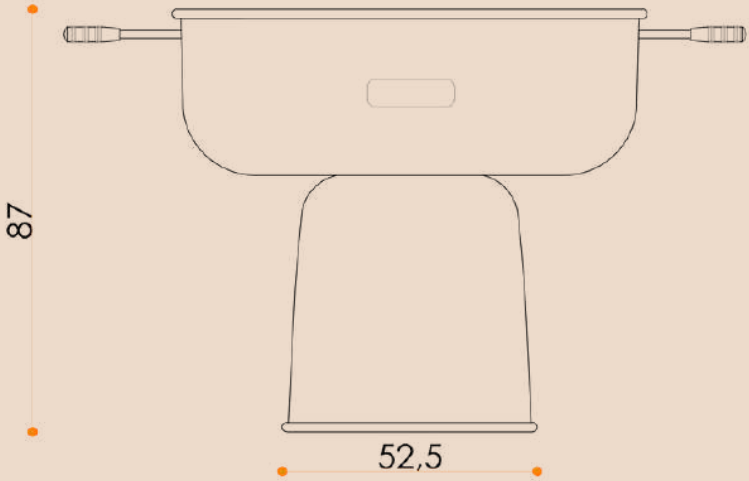

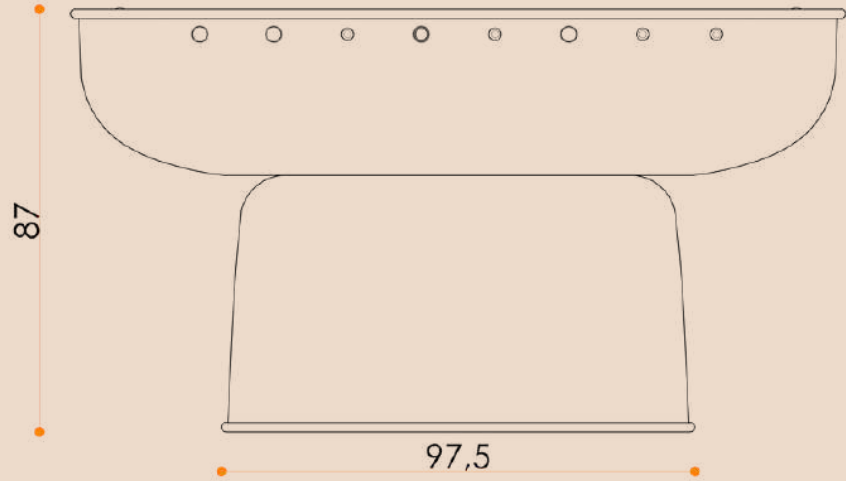

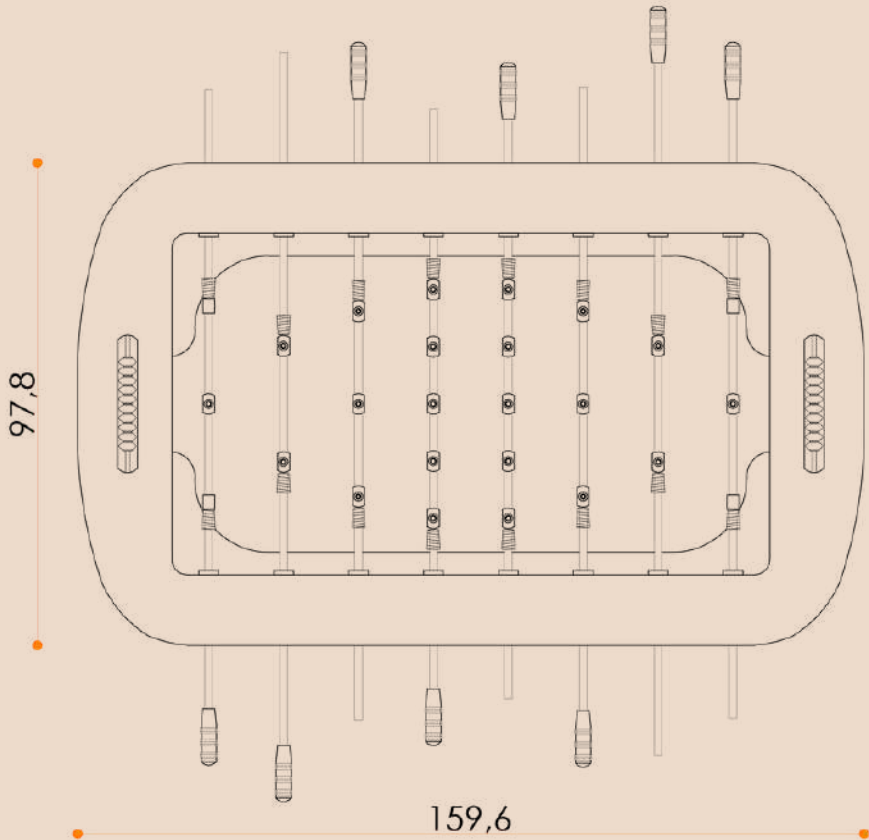

Rounded shapes,
sinuous lines and
pastel colours.

Double Face Chess & Backgammon Board

The background features a light beige color with a collage of various game accessories. At the top, there are several playing cards: a diamond, a spade, a club, and a heart. Below these are two dice, one showing a 1 and the other a 6. In the center, there is a large chess king piece. At the bottom, there are more playing cards, including a spade, a club, a diamond, and a heart. There are also several chess pieces: a knight, a rook, and a king. The text "Four drawers hide all game accessories needed." is centered in a dark brown, serif font.
