

# SCACCOMATTO Chess Table

LE.GT.CHE.RO - LE.GT.CHE.SQ

---

## Description

Contemporary style and seductive power: these are the main features reflected in each detail of SCACCOMATTO Chess Table.

This lift table is a real work of art, usable in different ways.

The rising mechanism is powered by a lithium battery directly rechargeable from home electricity; the movement is managed by a button placed on the side, or thanks to an optional remote control. In the inside space are located chess, checkers and backgammon sets. The chessboard is elegantly inlaid with ebony and mother-of-pearl and covered with tempered glass.

All chess pieces, made of turned and anodized aluminum, are exclusively designed by Vismara.

*Available also without mechanism*

**Designed by Pino Vismara**

Year 2016

## Extra Accessories:

Remote Control

Backgammon board/tray with inlays
